Precision Grinder – CNC ID/OD

Immediate opening for a senior level CNC ID/OD Precision Grinder. Our ideal candidate will have 10+ years of experience with CNC grinder programming and be able to step into this role quickly to perform very high quality precision grinding work.

This is a full time hourly role based in our Nashua, NH location. We are open Monday-Friday, day shift only. Hours are somewhat flexible but most people work 7:00 am-4:30 pm. A modest amount of overtime is usually available. We are a high quality private employer offering competitive pay plus an excellent benefits package that begins on your first day of employment including Blue Cross Blue Shield of MA PPO medical and dental plan. We also offer 401k with company contribution, paid holiday/vacation/and sick time, vision insurance, life/add/long term disability insurance.

Option: Under the right circumstances, and for the right individual, we could consider a very experienced grinder who works a night shift and wants part or full time daytime hours.

Responsibilities include:
- ID/OD CNC Grinder programming
- Precision flat and rotary grinding operations using surface grinders and cylindrical grinders to high precision tolerances.
- Single piece prototypes to low volume, high precision production.
- Performing in-process and final inspection on parts and verifying that all print tolerances and specifications are met.
- Ability to operate independently and process parts from prints is a must.
- Maintaining compliance to production schedules, cost requirements and performance specifications.
- Follow 5S and lean manufacturing principles and practices in an ISO 9001 manufacturing environment.

Position Requirements:
- High school diploma or GED
- 10+ years of experience with grinding concepts and strategies
- 10+ years of experience with CNC ID/OD programming
- Known for high precision & accurate work results
- Read and accurately interpret blueprints and related work instructions.

Preference will be given to candidates who:
- Work self-sufficiently with minimal supervision.
- Have good interpersonal skills and can work as a team player
- Develop grinding processes including designing and building fixtures and setups

We offer an unparalleled clean and neat machine shop environment that is team oriented and challenging with a high degree of independence. Our Nashua location is part of a larger company that is thriving and has plenty of work to keep us all busy!

PI Physik Instrumente, LP designs and manufactures precision air bearing components and air bearing motion systems. We are an Equal Employment Opportunity Employer/Protected Veterans/Individuals with Disabilities.

This is a direct hire. No agencies at this time, please no solicitations.
